

IN FLIGHT

(1)

Hi,

How about a short, hand-to-read travel report.... please return since Dauna has been keeping such items.

Thursday (May 20, 1975) left work about 11:30 a.m. & flew TWA to LONDON; via L.A. and then over the pole. Hardly ever got dark for sun rose shortly after setting. Arrived Wed. morning. Beautiful day, went to London and met all of our group (of 5) and walked Hyde Park, then train to HORSHAM (about 40 miles south). Meeting on Thursday and Friday and was worthwhile. Wed. eve ate with dozen fellows going to meeting. Thurs eve was big banquet of meeting folks. Friday eve our 4~~0~~ ate at Len Culhane's house. Had kipper for breakfast most days and beer + sandwich at a pub for lunch.

Saturday, Sunday, Monday toured south ~~east~~ west England via backroads and playing it by ear... old castles, quaint towns, bronze ~~age~~ age relics, interesting hotels, pubs and food, roman ruins; Cambridge and Oxford. Ended up at Cambridge ~~the~~ Man. Eve for had a meeting Tues with a subcontractor who will build electronics for our British collaborators on SMM and thus be interfacing with our electronics.

TUES was meeting and was useful.

Tues eve we drove to town near Oxford for next three days SMM meeting of the ~~three~~ two British groups and ourselves was to be there at one of their institutions.

Wed., Thurs., Fri. Good Meeting.

Wed. Eve at dinner at their Principal Investigator's house and was super and both steak pie & kidney pie were excellent.

Friday ate at neat hotel and then went to one of their fellows house for beer, snacks and talk ... also quite nice.

Saturday left England and am now halfway 'home'. Actually am flying into San Diego to meet Eaura and kids at Ted and Ida Mae Yellen's house and will go ~~Palo Alto~~ to Cupertino Sunday.

Looks like fly to Cape/Florida, Thursday or maybe Wednesday.

Obtained no china for phet, even had secretary trying to locate it with no luck. Story is they export it all, but will need to write factory for real information for next trip. Sorry.

So it is . TIS ME
